👏 Cybersec Netherlands has come to a close! For two days experienced cyber security experts as well as next-gen start-ups shared knowledge with peers to tackle cybersecurity challenges. Businesses and institutions of all sectors learned how to enhance cyber resilience and protect their core.

The programme was filled with captivating speakers and innovative presentations and panel discussions, including several HSD partners such as [Audittrail](#), [Cegeka](#), [SoSafe](#), [Secior](#) and [Darktrace](#)

A big thank you to [Cybersec Netherlands](#) for making it all possible, and we look forward to [Cybersec Europe 2024](#) in May 2024!

Gisteren heb ik de [Cybersec Netherlands](#) beurs bezocht, samen met collega [Lex van den Elshout](#). Interessante bedrijven en sprekers die zich op hun eigen manier inzetten voor een beter cybersecurityklimaat komen daar jaarlijks samen. Een inspirerende dag en een aanrader voor cybersecurity experts, maar ook voor bedrijven die kritisch over hun eigen beveiliging nadenken!
